

BAOLGI

La Vigne d'eau est aujourd'hui certainement la matière de tissage la plus raffinée du marché. Avec deux collections par an, BAOLGI associe la vigne à la porcelaine et le verre. Toute la collection est couverte d'un vernis alimentaire, résiste à la chaleur et peut être lavée à l'eau.

Le Rotin, matière de tissage par excellence, est utilisé dans les pays asiatiques depuis des millénaires. BAOLGI sélectionne des rotins d'une grande régularité et confie son tissage à ses artisans expérimentés en Birmanie. La collection Rotin résiste à la chaleur et est lavable à l'eau.

Today water vine basket ware is highly valued for its fine spliced weaving and natural colour variation. Our weavers apply their traditional skills for tableware and home accessories. The Water Vine collection is covered with a food safe varnish, is heat resistant and can be cleaned with water.

Rattan has always been the finest material for weaving in Asian countries. BAOLGI selects the most regular species and asks its experienced workers in Burma to transform them into artwork. All rattan products are heat resistant and can be cleaned with water.
